

## CREATE A COMPLETE LOOK WITH COORDINATING WALL BASE

Choosing the right wall base to complete your floor is easy, just follow the steps below to choose the best option for your project:

### 1. How high do you need the molding to be?

Some options come in all available heights, some are limited. Use the chart to determine which product comes in the height you desire.

### 2. What product is this being installed with?

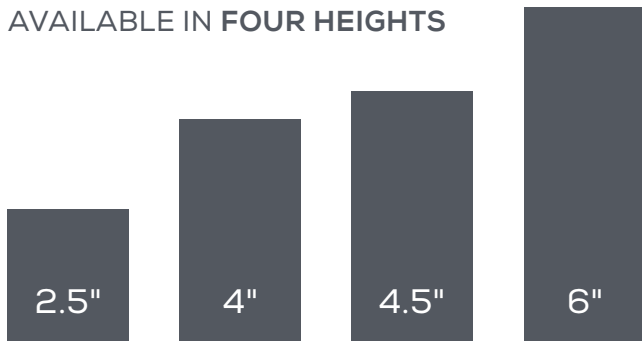

**Hard Surface:** Choose Coved or Sculpted. **Carpet:** Choose Toeless or Sculpted.

### 3. What color do you prefer?

Choose a color that best fits your style.

More colors are available, go to [ManningtononMain.com/WallBase](http://ManningtononMain.com/WallBase) for more information.
